English, Malayalam, Hindi

WORK EXPERIENCE

Dfine Digital Solutions — Malappuram, India

Nov 2024 – Present

Full Stack Developer

- Led full-stack development of scalable fintech and enterprise applications using PHP, Laravel, MySQL, JavaScript, HTML, CSS, and Bootstrap, owning architecture and end-to-end delivery.
- Architected and developed secure, scalable RESTful APIs and integrated them with responsive web applications and Android clients, implementing authentication, authorization, validation, and API versioning.
- Designed and integrated payment gateways, real-time IoT/device communication, and complex business workflows, focusing on security, reliability, performance, and failure handling.
- Optimized application performance through database query tuning, frontend optimization, reusable architecture, and debugging, while mentoring developers and maintaining coding standards across the team.

Natmco Solutions — Malappuram, India

Sep 2023 – Nov 2024

Software Developer

- Developed and maintained scalable backend applications using PHP, Laravel, MySQL, and RESTful APIs, focusing on clean architecture, performance, security, and maintainability.
- Architected and developed secure RESTful APIs for web and Android applications, implementing authentication, authorization, validation, API versioning, and reliable data processing.
- Designed and integrated payment gateway workflows, real-time IoT/device communication, background jobs, notifications, and complex business logic for enterprise applications.
- Optimized database queries, application performance, and backend workflows while debugging production issues, conducting code reviews, and mentoring developers on Laravel best practices.
